Colored Markers (8 pack) (Art)	1 each	1 each	1 each

### NOTES

*EMMS highly encourages families to consider purchasing zipper binders rather than individual binders. We have discovered that zipper binders assist students with organization. Also, students are not allowed to carry backpacks during the school day, and this helps alleviate lost instructional time due to frequent locker stops.*

One (1) Student Planner will be given to each 6<sup>th</sup> grade student for 2021-2022. Planners will be available upon student request for 7<sup>th</sup> and 8<sup>th</sup> grade students.

The TI-84 Plus Silver Edition Graphing Calculator will be used regularly in your child's class. Graphing calculators are an important technology used in Howard County mathematics courses beginning with pre-algebra and extending through the end of the mathematics course sequence. **Although students will be provided with a graphing calculator for use in school and have the ability to borrow one for out of school use, students are best served by having a personal calculator and becoming very familiar with how it is used to address a number of different types of mathematics problems.** Students who go on to take mathematics courses in college will often be able to use the same calculator for college course work.
